

GENESIS FORMULAB

PEPPERMINT SPRITZ HAND SANITIZER

70% ALCOHOL-BASED

INGREDIENTS

Water 21%/21%

Vegetable Glycerin 5%/5g

95% Isopropyl Alcohol 73.7%/73.7g

Vitamin E 0.2%/0.2g

Peppermint Essential Oil 0.1%/0.1g

METHOD

1. Add the oils into the alcohol and mix well until homogenous.
2. Add glycerin and water into the Alcohol solution and mix well
3. Pour into a spritz container and use liberally

SUBSTITUTIONS

You can substitute Isopropyl Alcohol with Ethanol or Ethyl Alcohol. If your suppliers concentration is different, ask for the measurements of obtaining a 70% concentrated alcohol. If the weight is more than what is given in this recipe, simply reduce the water phase. If the weight is less, increase the water phase.
